REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance

Claims 1, 2 and 9-57 are being examined. 1, 9, 18 & 37 are independent claims. They are directed to a composition (and a method of its preparation) comprising an insoluble material together with a specific copolymer which acts as a dispersant for that insoluble material to disperse it (i.e. material) in an aqueous medium.

Prior art includes Kataoka et al (JP 58131903), primary reference and Fujita et al (JP 6236302), secondary reference. Prior art discloses a composition of an inorganic material and a copolymer acting as dispersant. However the claimed dispersant is neither taught nor suggested. Hence prior art fails to render above claims prima facie obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Umakant K. Rajguru whose telephone number is 571-272-1077. The examiner can normally be reached on M-F 9:30 am-6:00 pm.

Art Unit: 1711
